Abstract: The Lacey Act (Act, 18 U.S.C. 42) prohibits the importation of any animal deemed to be and prescribed by regulation to be injurious to:

- Human beings;
- The interests of agriculture, horticulture, and forestry; or
- Wildlife or the wildlife resources of the United States.

The Department of the Interior is charged with implementation and enforcement of this Act. The 50 CFR 16.13 regulations allow for the importation of dead unviscerated salmonids (family Salmonidae), live salmonids, live fertilized eggs, or gametes of salmonid fish into the United States. To effectively carry out our

responsibilities and protect the aquatic resources of the United States, it is necessary to collect information regarding the source, destination, and health status of salmonid fish and their reproductive parts. In order to evaluate import requests that contain this data, it is imperative that the information collected is accurate. Those individuals who provide the fish health data and sign the health certificate must demonstrate professional qualifications, and be approved as Title 50 Certifiers by the Fish and Wildlife Service through an application process.

We use three forms to collect this Title 50 Certifier application information:

(1) FWS Form 3–2273 (Title 50 Certifying Official Form). New applicants and those seeking recertification as a title 50 certifying official provide information so that we can assess their qualifications.

(2) FWS Form 3–2274 (U.S. Title 50 Certification Form). Certifying officials use this form to affirm the health status of the fish or fish reproductive products to be imported.

(3) FWS Form 3–2275 (Title 50 Importation Request Form). We use the information on this form to ensure the safety of the shipment and to track and control importations.
